A COMPLETE GUIDE TO SIZING PROPERLY

How to Measure

TIPS FOR FLAWLESS UNIFORMS

Before Sizing Your Athletes, please read all information below to ensure correct measurements are taken. If you have any questions about how to measure, please contact your GlitterStarz rep for more information.

All athletes need to measure the bust, waist, and hip to correctly put themselves into a GlitterStarz size. If any of these measurements fall into a bigger size than the other, we highly recommend choosing the larger size to accommodate the body. All athletes are built differently, and alterations may be needed per person.

How to measure:

Bust: Have the athlete stand with their arms in a "T" motion. With the tape measure, measure the bust across the nipples (at the fullest part of the chest), in a full circle around the back and to the front. Have athlete PUT THEIR ARMS BACK DOWN and log that measurement.

Waist: Make sure the athletes feet are shoulder width apart. Wrap the tape measure around the natural waistline, the most narrow part of the waist. If you are unsure of where that is, have your athlete bend to the side, and the body will bend at the natural waist.

Hip: With the athlete standing feet shoulder width apart, take the hip measurement at the fullest part of their hips/buttocks

While Glitterstarz is a custom uniform company, that does not mean that the received garments will come with custom sizes. Although we strive to fit our athletes into the perfect size, we are not responsible should alterations be required for a custom fit.
